We are proud to support...

Plants & Minds

Charity No. 900325

Through the use of Therapeutic Horticulture, Cherry Tree Nursery helps to restore mental well being, and give purpose to people's lives. We are a Charity providing meaningful occupation in a supportive environment, aiming to restore well-being to people with mental illness.

As the mental health crisis across the UK deepens, we believe that the charity has an important part to play in supporting individuals whose lives are affected by poor mental health. People need purpose and that is what we give them.

Caring for People, Caring for Plants
